Saya Logistik is dedicated to offering freight forwarding services throughout the ASEAN region. China and ASEAN have emerged as symbols of fast growing economy. Our extensive network of freight agents across ASEAN countries, including China, Malaysia, Thailand, Vietnam, and Indonesia, are committed to understanding your needs and delivering flexible solutions that guarantee the utmost reliability and accuracy in managing the shipments of your goods.

Consolidation Service

When you make purchases **online** at China e-Shop, you will incur charges for **tax** and **shipping costs** for each individual purchase. By utilizing our Consolidation Service, you can send your items to our warehouse in China, thereby avoiding the issue of double taxation. We will consolidate multiple orders into a single shipment, resulting in **cost savings** for you.

Furthermore, our warehouse offers **visual inspection** on the purchased items to prevent any damage, thus saving you both time and money.

We will handle the customs clearance and deliver the goods directly to your doorstep.

Process:

1. Begin your shopping at China e-Shop.
2. Use our warehouse address as the delivery location.
3. Inform us of the incoming tracking number.
4. Settle the freight charges.

Then, we will consolidate your items and deliver them from our China warehouse to your **doorstep**.

Our service is now available in **Singapore, Malaysia, Indonesia**

Reasons to use Consolidation Service

- **Cost Saving**
instead of paying freight & tax for individual purchase, we consolidate and reduce the shipping cost and tax to you
- **Goods Inspection**
we assist in conducting an inspection of your package and perform a visual examination of the item as per your request
